

# Bharat Talent Search Exam 2026

Std. : 4th

Medium - English

Questions : 75

Time : 2 Hrs.

Subject : Language, Maths, EVS, Logical Thinking

Marks : 150

## Section A

Instructions for Q. 1 to 3 Read the below passage and answer the questions below.

### In the World of Animals

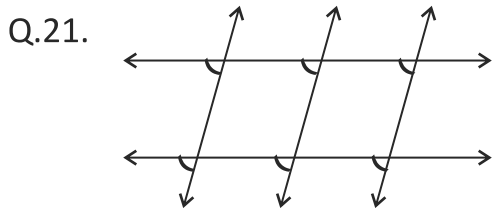

In the world of animals, there are many different kinds of creatures living on land, in the water or in the sky. Animals like elephants and tigers live in the forests. Fish and dolphins swim in the oceans and rivers. Birds like eagles and parrots fly high in the sky. Every animal has a special way of living, for example, some animals sleep during the day and are awake at night, like owls. Others, like cows and goats, eat grass and plants. Some animals live alone, while others, like lions, live in groups called prides. Animals are important because they help to keep the environment balanced. They also make the world a more interesting and beautiful place to live in.

- Q.1. Where do elephants and tigers live?  
1) In the forest                      2) In the sky                      3) In the oceans                      4) In the rivers
- Q.2. Which animals swim in the oceans and rivers?  
1) Elephants                      2) Fish and dolphins                      3) Eagles                      4) Parrots
- Q.3. What do cows and goats eat?  
1) Fish                      2) Grass and plants                      3) Other animals                      4) Insects
- Q.4. Tanishqa is tired but she is still doing her homework. Identify the conjunction in the sentence.  
1) tired                      2) but                      3) still                      4) homework
- Q.5. What does the word 'grazing' mean when referring to the deer?  
1) Sleeping                      2) Running                      3) Eating grass                      4) Playing
- Q.6. How much is the sum of all two -digit numbers that have seven in the place of tens?  
1) 700                      2) 745                      3) 755                      4) 765
- Q.7. Which digit will be in the tens place of the largest four digit number formed using the numbers 7,4,9,5  
1) 7                      2) 4                      3) 9                      4) 5
- Q.8. Find the relationship among the given numbers and identify the incorrect option.  
1) 8-512                      2) 4-64                      3) 9-728                      4) 7-343

- Q.9. What is the result of subtracting the smallest composite number from the largest composite number of numbers 11 to 20?  
1) 7                      2) 8                      3) 9                      4) 10
- Q.10. From which substance is the body of a butterfly made?  
1) Carbon                      2) Chitin                      3) Nicotine                      4) None of these
- Q.11. Which is the first National Park in Maharashtra?  
1) Kanha                      2) Sundarban                      3) Kaziranga                      4) Tadoba
- Q.12. Which insect is known for its ability to give light?  
1) Beetle                      2) Mosquito                      3) Firefly                      4) Moth
- Q.13. Which of the following is NOT an insect?  
1) Butterfly                      2) Ant                      3) Spider                      4) Mosquito
- Q.14. In a row, after the first tiger, there is a one deer, after the second tiger, there are two deers, after the third tiger, there are three deers, etc. like this 45 animals are standing. Then, how many deers are there among 45 animals?  
1) 24                      2) 36                      3) 28                      4) 8
- Q.15. A figure has 4 sides and all its angles are equal but sides are not equal then which figure is it?  
1) Square                      2) Rectangle                      3) Triangle                      4) Rhombus

### Section B

- Q.16. Which sentence is NOT in the Past Tense?  
1) They are watching a movie.                      2) The boys played cricket in the evening.  
3) She wrote a letter to her friend.                      4) We visited the museum yesterday.
- Q.17. What a beautiful garden. Which punctuation mark is NOT used properly?  
1) Capital letter                      2) Full stop                      3) Exclamation mark                      4) Spacing

1) Ravi's bag is the heaviest of all.                      2) Sohan's bag is heavier than Amit's bag.  
3) Amit's bag is the heaviest of all.                      4) All three bags are equal in weight.
- Q.19. Which adjective would you use for a kitten?  
1) Big                      2) Brave                      3) Tiny                      4) Bright
- Q.20. Riya stood ..... her two friends while taking the group photo.  
1) among                      2) behind                      3) beside                      4) between

How many acute angles are there in a given diagram?

- 1) 3                      2) 6                      3) 9                      4) 12

Q.22. Aarush purchased a bike at ₹28000, repairing cost of his bike was ₹1250, he sold this bike at 23800₹, then how much profit or loss he got in this transaction?

- 1) ₹5540 profit                      2) ₹5540 loss    3) ₹5450 profit                      4) ₹5450 loss

Q.23. Kavya has a total of ₹3842. She has six ₹2 notes, twenty six ₹5 notes thirty ₹10 notes and the rest of the amount is in ₹50 notes. Find the number of ₹50 notes.

- 1) 68                      2) 34                      3) 680                      4) 340

Q.24. A filter machine takes three-fourths of an hour to filter half a liter of water. How much time will it take to filter 12 litres of water ?

- 1) 16 hours                      2) 18 hours                      3) 15 hours                      4) 17 hours

Q.25. .... is Infinite on both sides.

- 1) Point                      2) ray                      3) line                      4) line segments

Q.26. What will you do if you have the following illness?

If you have a cough:

- 1) I will jump.                      2) I will take Adulsa (a herbal medicine)  
3) I will do nothing.                      4) I will just keep thinking.

Q.27. Identify the incorrect statement.

- 1) Fenugreek (Methi) is a leafy vegetable.    2) Matki is a pulse.  
3) Wheat is a cereal.                      4) Ragi (Nachni) is a pulse.

Q.28. Identify the incorrect pair.

- 1) Wheat : Pune                      2) Rice : Nagpur  
3) Jowar : Solapur                      4) Bajra : Chhatrapati Sambhajinagar

Q.29. If 6 is added to 10 times a number, the result is 56. What is the number ?

- 1) 6                      2) 50                      3) 5                      4) 56

Q.30. If 'Orange' is called 'Butter', 'Butter' is called 'Soap', 'Soap' is called 'Ink', 'Ink' is called 'Honey' and 'Honey' is called 'Sugar', then which of the following is used for washing clothes ?

- 1) Honey                      2) Butter                      3) Red                      4) Ink

## Section C

Instructions for Q. 31 To Q. 33 Read the below Poem and answer the questions below.

### Let's Communicate

Communication is the key,  
To unlock what's inside you and me.  
With words we speak and letters we write,  
We share our thoughts, both day and night.

Through talking, laughing, and sharing a smile,  
We connect with others, mile after mile.  
But communication isn't just about words,  
It's also about listening, like chirping birds.

We use our ears to hear what's said,  
And our hearts to feel instead.  
With gestures, nods, and a friendly wave,  
We show we care and that we're brave.

So let's communicate, let's express,  
In every way, let's do our best  
For, when we talk and when we listen,  
We build connections, never to lessen.

Q.31 What is the main theme of the poem 'Let's Communicate'?

- 1) Friendship                      2) Kindness                      3) Communication                      4) Happiness

Q.32 Why is listening important in communication according to the poem?

Q.36 What is the unshaded portion of the figure?

1)  $\frac{1}{8}$

2)  $\frac{4}{8}$

3)  $\frac{6}{8}$

4)  $\frac{7}{8}$

Q.37 Find the option that is NOT related to technology.

1) Mobile

2) Computer

3) Slate

4) Printer

Q.38 Out of 2000 trees, 20% are Mango trees, 15% are Jackfruit trees and 25% are Cashew trees, then how many trees are left?

1) 800

2) 1200

3) 600

4) 1100

Q.39 Find the incorrect pair.

1) Ram Ganesh Gadkari – Govindagraj

2) Vishnu Vaman Shirwadkar – Kusumagraj

3) Krishnaji Keshav Damle – Keshavkumar

4) N. Dho. Mahanor – Rankavi

Q.40 Akshay is standing facing the South-West direction. What is the direction of his right hand?

1) North-West

2) South-East

3) South

4) North-East

Q.41 Which of the following pair of directions are NOT opposite to each other?

1) East – West

2) North-West – South-East

3) North – South

4) North-East – South-East

Q.42 Pradeep walked 10 meters towards south from his house. From there he walked 5 meters to the right. If again he walks 10 meters to the right, how far is he from the house?

1) 10 m

2) 5 m

3) 25 m

4) 30 m

Q.43 Who among the following was given the title “Netaji”?

1) Jawaharlal Nehru

2) Vallabhbhai Patel

3) Subhas Chandra Bose

4) Jagadish Chandra Bose

Q.44 ( Alphabet - ABCDE FGHIJ KLMNO PQRST UVWXY) What is the position from the left of the 18th letter from the right in the given letter series ?

1) 7th

2) 9th

3) 10th

4) 8th

Q.45 From the given series 900, 147, 104, 351, 203, 131, 222, 303. If the numbers divisible by 3 are arranged in ascending order, which numbers will come in the middle?

1) 222

2) 351

3) 303

4) 147

### Section D

Q.46 The community center is popular \_\_\_\_ the local residents.

1) to

2) for

3) among

4) with

Q.47 The teacher asked \_\_\_\_ to organize the books.

1) him

2) us

3) we

4) It

Q.48 \_\_\_\_! Look at the beautiful mural on the wall.

1) Ouch

2) Uh-oh

3) Yay

4) Hey

- Q.49 Who can fix your car when it is broken down?  
 1) Pilot                                      2) Chef                                      3) Mechanic                                      4) Author
- Q.50 The distance from Sujith's house to Gram Panchayat is 6000 meters. So how much is that distance in km?  
 1) 60 km                                      2) 600 km                                      3) 6 km                                      4) 66 km
- Q.51 An elephant's weight is two tons and one and a half quintals, a tiger's weight is three and a quarter quintals, and a rabbit's weight is 5 kg. What is the total combined weight of all three animals?  
 1) 2480 grams                                      2) 2480 kg.  
 3) Two tons four quintal eighty kg                                      4) Option 2 and 3 are correct
- Q.52 The length and width of a rectangular field are 225 m and 175 m respectively, if the cost of a four-layer wire to fence around the field is Rs. 15 per metre. How much will it cost in total?  
 1) 32000 Rs                                      2) Rs.40000                                      3) 48000 Rs                                      4) Rs.60000
- Q.53 A bag contains 3 kilograms 450 grams of Sugar. Another bag has 550 grams less Sugar than it. How much Sugar is in the second bag?  
 1) 3 kg                                      2) 2 kg 900 gm                                      3) 2 kg 850 gm                                      4) 3 kg 100 gm
- Q.54 Identify the wrong pair.  
 1) IX = V + IV                                      2) IX = X - I                                      3) IX = XX - IX                                      4) IX = XI - VI
- Q.55 Identify the word that does NOT belong to the group.  
 1) Anganwadi                                      2) Primary Health Centre  
 3) Village                                      4) Municipal Corporation
- Q.56 How can you show respect to your neighbours?  
 1) By playing loud music late at night                                      2) By completely ignoring them  
 3) By cooperating with them and being friendly                                      4) By gossiping about them
- Q.57 If the health of the ladies who serve the school mid-day meal is not good, what will you do?  
 1) I will make more noise during the recess.  
 2) With the teacher's permission, I will help them in serving the meal.
